

## Seasonal pattern of pasture growth

Warmer and drier future climates projected for southern Australia (A1FI)

Cullen et al (2009) *Crop & Pasture Science*, 60, 933-942.

Figure above – stylised impacts over current, 2030 and 2070

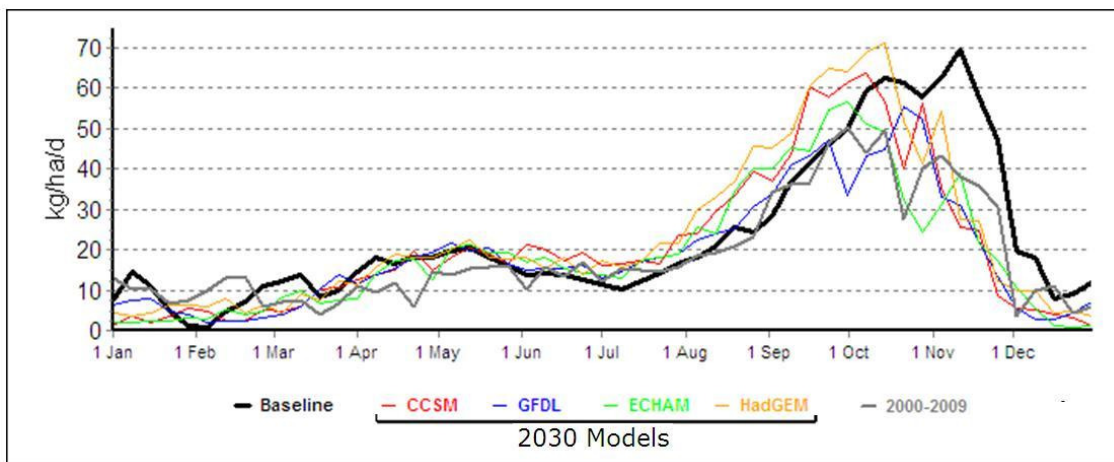

Figure above - Actual modelled output – 4 GCM's, Lismore Victoria – current and 2030
